Heal Thyself Pieter De Wet, 2010-06-29 With our health care system at its breaking point, it is incumbent upon each of us to learn how to better take care of ourselves. Is it conceivable that disease is a blessing, not a curse—a biological solution to internal imbalances created by unresolved inner conflicts, lifestyle, environmental toxins, and infectious agents? Author and doctor Pieter J. De Wet sheds new light on why and how you get sick and guides you through the most critical steps on how to gain your health back in *Heal Thyself: Transform Your Life, Transform Your Health*. 'Every patient should read this book in order to gain optimum health. *Heal Thyself* helps even the novice patient understand how most illnesses actually develop and how the patient can take responsibility for their own recovery using safe, effective, noninvasive techniques.' —William Lee Cowden, MD, MD(H) By understanding the purpose of disease and its root causes, the solutions become readily apparent. Follow Dr. De Wet's twelve-week plan, and let *Heal Thyself* empower you to embrace these solutions and no longer feel that you are at the mercy of unpredictable and devastating scourges.

The Cancer Revolution Leigh Erin Connealy, 2017-01-24 Founder and Medical Director of the Center for New Medicine and the Cancer Center for Healing Dr. Leigh Erin Connealy offers her groundbreaking integrative approach to treating and preventing cancer, now fully revised and updated. When it comes to cancer, conventional doctors are trained to treat their patients exclusively with surgery, radiation, and chemotherapy. These methods are grueling on the whole body--and they don't treat beyond the tumor or the cancer itself. The focus is on the disease, not the whole person--and because of this, the outcomes in conventional medicine can be bleak. But it doesn't have to be this way. Dr. Leigh Erin Connealy has developed a whole-person approach to treating cancer--and these treatments have helped thousands of patients through her Cancer Center for Healing. In *The Cancer Revolution*, Dr. Connealy shows you how to get to the root causes of cancer and the practical steps you can take to get back on the path to healing. Chemotherapy and radiation have their place in treatment, but in many cases, they are simply not enough, because cancer isn't caused by one thing, but by many different factors. All of these causes must be addressed, not just the tumor. *The Cancer Revolution* will equip you to make impactful, achievable lifestyle choices that fight the root of the disease, and that offer hope for recovery and a cancer-free life. Now fully revised and updated with the latest research and treatment protocols.

There's More to Fear than Fear Itself: Fears and Anxieties in the 21st Century Izabela Dixon, Selina E.M.

Doran, Bethan Michael, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2016. From concerns about the 'other' and the 'unknown' through to anxieties about crime and the apocalyptic and monstrous, these chapters traverse a contemporary landscape of social, cultural and existential fears. How do fictional narratives in literature, film and television programmes construct and entrench fears and anxieties? What can contemporary fears and anxieties tell us about the changing nature of the world? What is perceived as a threat? How do the media shape perceptions of those threats? Gun crime, gender equality, terrorism, technology, black holes, Ebola and the return of the dead are all seen to produce fear and anxiety. Reflecting on the things we have come to fear the most and exploring their specific constructions and implications, this volume brings new dimensions to our understanding of the fears and anxieties that permeate the contemporary West.

Rock Lake's Stellar Pyramids: Legends of Wisconsin's Sunken Site a Preliminary Study J. Price Ph.D., 2020-02-22 In 1988, a side-scan sonar reading of Rock Lake, Wisconsin's underwater structures was recorded by divers, under the direction of University of Wisconsin Professor of Civil Engineering Dr. James Scherz. After viewing the image, the author worked with Sac and Fox Nation elders in Wisconsin and Stroud, Oklahoma, to obtain the translations of the Medewigan, or Medicine Lodge. Similar legends are described in Ashinaubig, Menominee, Ojibway, and Winnebago (Ho Chunk) traditions and in an 1890 Ojibway text. However, the oldest written record of the Sauk Tribe is found in an 1100 B.C. Chinese Imperial record that describes the Emperor's notation of similarity in the warriors' archery skills and red-plumed Mohawks, which recalled their own Red Phoenix creation legends.

Liberating Sociology: From Newtonian Toward Quantum Imaginations: Volume 1: Unriddling the Quantum Enigma Mohammad H. Tamdgidi, 2020-01-20 In this major new study in the sociology of scientific knowledge, social theorist

Mohammad H. Tamdgidi reports having unriddled the so-called 'quantum enigma.' This book opens the lid of the Schrödinger's Cat box of the 'quantum enigma' after decades and finds something both odd and familiar: Not only the cat is both alive and dead, it has morphed into an elephant in the room in whose interpretation Einstein, Bohr, Bohm, and others were each both right and wrong because the enigma has acquired both localized and spread-out features whose unriddling requires both physics and sociology amid both transdisciplinary and transcultural contexts. The book offers, in a transdisciplinary and transcultural sociology of self-knowledge framework, a relativistic interpretation to advance a liberating quantum sociology. Deeper methodological grounding to further advance the sociological imagination requires investigating whether and how relativistic and quantum scientific revolutions can induce a liberating reinvention of sociology in favor of creative research and a just global society. This, however, necessarily leads us to confront an elephant in the room, the 'quantum enigma.' In *Unriddling the Quantum Enigma*, the first volume of the series commonly titled *Liberating Sociology: From Newtonian toward Quantum Imaginations*, sociologist Mohammad H. Tamdgidi argues that unriddling the 'quantum enigma' depends on whether and how we succeed in dehabituating ourselves in favor of unified relativistic and quantum visions from the historically and ideologically inherited, classical Newtonian modes of imagining reality that have subconsciously persisted in the ways we have gone about posing and interpreting (or not) the enigma itself for more than a century. Once this veil is lifted and the enigma unriddled, he argues, it becomes possible to reinterpret the relativistic and quantum ways of imagining reality (including social reality) in terms of a unified, nonreductive, creative dialectic of part and whole that fosters quantum sociological imaginations, methods, theories, and practices favoring liberating and just social outcomes. The essays in this volume develop a set of relativistic interpretive solutions to the quantum enigma. Following a survey of relevant studies, and an introduction to the transdisciplinary and transcultural sociology of self-knowledge framing the study, overviews of Newtonianism, relativity and quantum scientific revolutions, the quantum enigma, and its main interpretations to date are offered. They are followed by a study of the notion of the "wave-particle duality of light" and the various experiments associated with the quantum enigma in order to arrive at a relativistic interpretation of the enigma, one that is shown to be capable of critically cohering other offered interpretations. The book concludes with a heuristic presentation of the ontology, epistemology, and methodology of what Tamdgidi calls the creative dialectics of reality. The volume essays involve critical, comparative/integrative reflections on the relevant works of founding and contemporary scientists and scholars in the field. This study is the first in the monograph series "Tayyebah Series in East-West Research and Translation" of *Human Architecture: Journal of the Sociology of Self-Knowledge* (XIII, 2020), published by OKCIR: Omar Khayyam Center for Integrative Research in Utopia, Mysticism, and Science (Utopystics). OKCIR is dedicated to exploring, in a simultaneously world-historical and self-reflective framework, the human search for a just global society. It aims to develop new conceptual (methodological, theoretical, historical), practical, pedagogical, inspirational and disseminative structures of

knowledge whereby the individual can radically understand and determine how world-history and her/his selves constitute one another. Reviews “Mohammad H. Tamdgidi’s *Liberating Sociology: From Newtonian Toward Quantum Imaginations*, Volume 1, *Unriddling the Quantum Enigma* hits the proverbial nail on the head of an ongoing problem not only in sociology but also much social science—namely, many practitioners’ allegiance, consciously or otherwise, to persisting conceptions of ‘science’ that get in the way of scientific and other forms of theoretical advancement. Newtonianism has achieved the status of an idol and its methodology a fetish, the consequence of which is an ongoing failure to think through important problems of uncertainty, indeterminacy, multivariation, multidisciplinary, and false dilemmas of individual agency versus structure, among many others. Tamdgidi has done great service to social thought by bringing to the fore this problem of disciplinary decadence and offering, in effect, a call for its teleological suspension—thinking beyond disciplinary—through drawing upon and communicating with the resources of quantum theory not as a fetish but instead as an opening for other possibilities of social, including human, understanding. The implications are far-reaching as they offer, as the main title attests, liberating sociology from persistent epistemic shackles and thus many disciplines and fields connected to things ‘social.’ This is exciting work. A triumph! The reader is left with enthusiasm for the second volume and theorists of many kinds with proverbial work to be done.” — Professor Lewis R. Gordon, Honorary President of the Global Center for Advanced Studies and author of *Disciplinary Decadence: Living Thought in Trying Times* (Routledge/Paradigm, 2006), and *Freedom, Justice, and Decolonization* (Routledge, forthcoming 2020) Social sciences are still using metatheoretical models of science based on 19th century newtonian concepts of time and space. Mohammad H. Tamdgidi has produced a ‘tour de force’ in social theory leaving behind the old newtonian worldview that still informs the social sciences towards a 21st century non-dualistic, non-reductionist, transcultural, transdisciplinary, post-Einsteinian quantum concept of TimeSpace. Tamdgidi goes beyond previous efforts done by titans of social theory such as Immanuel Wallerstein and Kyriakos Kontopoulos. This book is a quantum leap in the social sciences at large. Tamdgidi decolonizes the social sciences away from its Eurocentric colonial foundations bringing it closer not only to contemporary natural sciences but also to its convergence with the old Eastern philosophical and mystical worldviews. This book is a masterpiece in social theory for a 21st century decolonial social science. A must read! — Professor Ramon Grosfoguel, University of California at Berkeley Tamdgidi’s *Liberating Sociology* succeeds in adding physical structures to the breadth of the world-changing vision of C. Wright Mills, the man who mentored me at Columbia. Relativity theory and quantum mechanics can help us to understand the human universe no less than the physical universe. Just as my *Creating Life Before Death* challenges bureaucracy’s conformist orientation, so does *Liberating Sociology* “liberate the infinite possibilities inherent in us.” Given our isolation in the Coronavirus era, we have time to follow Tamdgidi in his journey into the depth of inner space, where few men have gone before. It is there that we can gain emotional strength, just as Churchill, Roosevelt and Mandela empowered themselves. That personal development was needed

to address not only their own personal problems, but also the mammoth problems of their societies. We must learn to do the same. — Bernard Phillips, Emeritus Sociology Professor, Boston University

O for the Love of God Michelle Hutchinson, 2011-04-12 In the beginning I never intended to write a book. I just started writing poetry in my early teens, and now after fifteen years of writing I decided to put it all together in a book. This is me, my life, my love, my failure, my faith, to share with all of you. My love for poetry is strong but my love for God is stronger, but I will remind all my readers that poetry is sometimes raw and very blunt, but can also touch the deepest depths of our souls. I hope my book finds that part in you.

Faith and Pestilence Alberto Melloni, Federico Ruozi, Francesca Cadeddu, 2024-12-09 This volume aims to take up the theme of the relationship between faith and pestilence, which, despite its topicality, is rooted in a long-term dimension that involves different areas of knowledge. A markedly disciplinary look brings together historical, theological, political, and juridical analyses and thus allows to understand this relationship through paradigms, turning points, continuities, and discontinuities. Such a wide perspective makes it possible to observe how the theme has crossed ages and religions, from the fathers of the church, to medicine in medieval Islam, up to contemporary times, with Ivan Illich's harsh critique of forced medicalization and the issues that emerged during the Covid-19 pandemic.

Sırlarımız Kadar Hastayız Bülent Demirci, Hastalık, ruhumuzun çılgılığınan başka bir şey değildir, o halde neden ısrarla çareyi sadece bedende arıyoruz? Bugün geleneksel tıp muhteşem görüntüleme teknikleriyle, kusursuz testleriyle ve olağanüstü teşhisleriyle işimizi çok kolaylaştırır da, bedeni hâlâ bir makine gibi gördüğü için enerji bedenimizi yok sayar. Oysa bedenimiz duygusal, zihinsel ve ruhsal çatışmalarla bir bütündür. Bedensel bir hastalığın sadece bedenle ilgili olduğunu düşünmek hem hekimler hem de hastalar için eksik bir yaklaşımdır. Bedende oluşan bir hastalık ruhun ilgili bölümünde başlar, sonrasında bedene mesaj olarak iletilir. Bu mesaj görünür hale geldiğinde biz buna “hastalık” deriz. İlaçları reddetmek mümkün değildir, ancak enerji bedeninin ilaçlardan çok daha etkili olduğu artık aşikârdır, üstelik enerji bedeninin şifasından faydalanmak için bir bedel ödemeniz de gerekmez. Dr. Bülent Demircioğlu, Sırlarımız Kadar Hastayız kitabında enerji bedeninizi nasıl iyileştireceğinizi en sade ve pratik yoluyla anlatıyor. Resetting metoduyla ruhun çalışma prensibini, travmaların kodlarını, bunların yönetilmesini ve boşaltımını her hastalığı ele alarak açıklıyor, kendi kendinize iyileşmenin holistik yollarını aktarıyor.: “Nasip.”

Trauma, Attachment and Family Permanence Caroline Archer, 2003-02-15 Fostered and adopted children can present major challenges resulting from unresolved attachment issues and early traumatic experiences. In this much-needed book, the contributors provide a variety of complementary perspectives on the needs of these children and their families, focusing on ways of integrating attachment theory and developmental psychology into effective practice. Examining multiple aspects of work with children who are unable to live with their birth families, the book includes contributions on the assessment, preparation and support needs of children and families, attachment and the neurobiological effects of trauma, effective management of contact with birth families and developmental challenges in school settings. The use of creative arts therapies, alongside developmental reparenting strategies as part of a long-term attachment therapy ‘package’, are explored in some detail. A fictionalised family, used as a working example throughout Part 2, brings practical interventions to life: illustrating the Family Futures’ inclusive approach, where adoptive and foster parents become pivotal members of the therapeutic team. In addition, contributions from real-life user families illustrate some of the challenges they face and demonstrate how the developmental attachment-based approach has worked for them. Bringing together a rich and

innovative selection of ideas for adoption and fostering practice across the disciplines, this book will be a valuable resource for all involved in supporting substitute families.
