I David R. Hawkins, MD/PHD, 2014-03-03 Experience spiritual enlightenment and personal transformation from world-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness, David R. Hawkins, M.D., Ph.D. This book combines consciousness studies with transpersonal psychology, providing an accessible gateway into the deeper dimensions of self and reality. It concludes the presentation of a long-predicted major advance in critical human knowledge. It explains and describes the very substrate and essence of consciousness as it evolved from its primordial appearance as life on earth on up through evolution as the human ego, and hence, to the ego's transcendence as the spiritual Reality of Enlightenment and the Presence of Divinity. It completes the description of the evolution of human consciousness from the level of approximately 800 to its peak experience at 1,000, which historically has been the ultimate possibility in the human domain. This is the realm of the mystic whose truth stems solely from the radical subjectivity of divine revelation. The text of the material is taken from lectures, dissertations, and dialogues with students, visitors, and spiritual aspirants from around the world who have different spiritual and religious backgrounds and varying levels of consciousness. On the referenced Scale of the Levels of consciousness, which calibrates the levels of Truth from 1 to 1,000, Power versus Force calibrates at 850, The Eye of the I at 980, and the final volume of the trilogy, I, calibrates at a conclusive 999.8. The uncommon clarity and lucidity with which the highly evolved subject matter is presented facilitates understanding. As with the reading of Power

versus Force or The Eye of the I, the reader's level of consciousness increases measurably as a consequence of exposure to this material itself, which is presented from a powerful field of exposition. Conflict is resolved within the mind of the student by means of recontextualization, which solves the dilemma. Argument and adversity are resolvable by identifying the positionalities of the ego which are the basis of human suffering. Some Chapters Include: The Process Spiritual Purification The 'Ego' and Society Spiritual Reality Realization The Realization of Divinity The Radical Reality of the Self The Mystic The Levels of Enlightenment The Nature of God The Obstacles Transcending the World The Emotions "Mind" Considerations Karma The Final Doorway The Transcendence The Inner Path "No Mind" The Way of the Heart The Recontextualization Spiritual Research Homo Spiritus This masterpiece is a revolutionary tool for personal transformation, blending quantum physics with spirituality, and a perfect read for anyone seeking enlightenment and a deeper understanding of the universe.
