The Law of Disclosure Ed Johnston, Tom Smith, 2020-12-17 This edited collection explores the topic of disclosure of evidence and information in the criminal justice process. The book critically analyses the major issues driving the long-standing problem of dysfunctional disclosure practice, with contributions from academics, lawyers, former police officers, and current police policymakers. The ultimate objective is to review the key problems at the investigative, trial and post-conviction stages of criminal proceedings, and to suggest a way forward through potential routes of reform, both legal and cultural. The collection represents a significant and novel contribution to the policy debate regarding disclosure, and advances thought on resolving this issue in a fair and sustainable manner. The book provides a valuable resource for academics, practitioners and policymakers working on this vital aspect of criminal procedure.

[Police Procedure and Evidence in the Criminal Justice System](#) Barrie Archer, George Ellison, 2025-02-28 Police procedure and evidence brought to life! A key text for all those on policing degree or other pre-join routes, this book examines police procedure and evidence in the criminal justice system, providing clear and accessible information while encouraging analysis and reflection. Chapters cover police powers, stop and search, arrest and custody, disposals, court procedures and disclosure, and rehabilitation. Uniquely it follows the journey of a fictional family who all in one way or another become involved in the criminal justice system, allowing students to consider a range of possible options and outcomes and bringing the theory to life.

Forensic Criminology Andy Williams, 2014-09-02 This text provides an examination of the aetiological development of forensic criminology in the UK. It links the subjects of scientific criminology, criminal investigations, crime scene

investigation, forensic science and the legal system and it provides an introduction to the important processes that take place between the crime scene and the courtroom. These processes help identify, define and label the 'criminal' and are crucial for understanding any form of crime within society. The book includes sections on: • the epistemological and ontological philosophies of the natural sciences; • the birth of scientific criminology and its search for the criminal 'body'; • the development of early forms of forensic science and crime scene investigation; • investigating crime; • information, material and evidence; • crime analysis and crime mapping; • scientific support and crime scene examination; and • forensic science and detection methods and forensics in the courtroom. The text combines coverage of historical research and contemporary criminal justice processes and provides an introduction to the most common forensic practices, procedures and uses that enable the identification and successful prosecution of criminals. Forensic Criminology is essential for students of criminology, criminal justice, criminal investigations and crime science. It is also useful to those criminal justice practitioners wishing to gain a more in-depth understanding of the links between criminology, criminal investigations and forensics techniques.

The Expert in Litigation and Arbitration Mark Cato,2020-11-25 The Expert in Litigation and Arbitration provides the complete picture of the role and duties of the expert witness in the UK, Germany, France, Italy, USA, Australia, Hong Kong and China. With articles and chapters from leading practitioners around the world, the book looks at the role of the expert in many different disciplines and jurisdictions, examining topical issues such as the independent status of the expert and professional liability. This book looks at the role of experts in both arbitration and litigation, considering how experts are currently used in civil actions and what lessons can be learnt from this. With much practical advice for the inexperienced expert witness, it covers many of the pitfalls faced by experts, looking at the various situations that can arise either in court or before an arbitrator.

Children and Cross-Examination J R Spencer,Michael Lamb,2012-06-01 In 2009, Stephen Barker was convicted of rape on the evidence of a little girl who was four-and-a-half years old at the trial, and about three-and-a-half when first interviewed by the police. The high point of the proceedings was the child's appearance as a live witness in order for Barker's counsel to attempt a cross-examination. This case focused attention on the need, imposed by current English law, for even tiny children to come to court for a live cross-examination. In 1989, the Pigot Committee proposed a scheme under which the whole of a young child's evidence, including cross-examination, would be obtained out of court and in advance of trial. In

1999 a provision designed to give effect to this was included in the Youth Justice and Criminal Evidence Act, but it has not yet been brought into force. The full Pigot proposal was implemented, however, in Western Australia, and similar schemes operate in a number of European jurisdictions. This book of essays examines a number of these schemes, and argues the case for further reforms in the UK.

The Official History of Criminal Justice in England and Wales Paul Rock, 2019-04-30 Volume II of *The Official History of Criminal Justice in England and Wales* traces, for the first time, the genesis and early evolution of two principal institutions in the criminal justice system, the Crown Court and the Crown Prosecution Service. This volume examines the origins and shaping of two critical institutions: the Crown Court, which rose from the ashes of the Courts of Assize and Quarter Sessions; and the Crown Prosecution Service which replaced a rather haphazard system of police prosecuting solicitors. The 1971 Courts Act and the 1985 Prosecution of Offences Act were to reconfigure the architecture of criminal justice, transforming the procedures by which people were charged, prosecuted and, in the weightier cases demanding a judge and jury, tried in the criminal courts of England and Wales. One stemmed from a crisis in a medieval system of travelling justices that tried people in the wrong places and for inadequate lengths of time. The other was precipitated by a scandal in which three men were wrongly convicted for the murder of a bisexual prostitute. There is an as yet untold history that can be explored in depth because it is recent enough, in the words of Harold Wilson, to have been 'written while the

official records could still be supplemented by reference to the personal recollections of the public men who were involved'. This book will be of much interest to students of criminology and British history, politics and law.

Innovations in Evidence and Proof Paul Roberts, Mike Redmayne, 2007-11-14 *Innovations in Evidence and Proof* brings together fifteen leading scholars and experienced law teachers based in Australia, Canada, Northern Ireland, Scotland, South Africa, the USA and England and Wales to explore and debate the latest developments in Evidence and Proof scholarship. The essays comprising this volume range expansively over questions of disciplinary taxonomy, pedagogical method and computer-assisted learning, doctrinal analysis, fact-finding, techniques of adjudication, the ethics of cross-examination, the implications of behavioural science research for legal procedure, human rights, comparative law and international criminal trials. Communicating the breadth, dynamism and intensity of contemporary theoretical innovation in their diversity of subject-matter and approach, the authors nonetheless remain united by a common purpose: to indicate how the best interdisciplinary theorising and research might be integrated directly into degree-level Evidence teaching. *Innovations in Evidence and Proof* is published at an exciting time of theoretical renewal and increasing empirical sophistication in legal evidence, proof and procedure scholarship. This groundbreaking collection will be essential reading for Evidence teachers, and will also engage the interest and imagination of scholars, researchers and students investigating issues of evidence and proof in any legal system, municipal, transnational or global.

The Criminal Process Liz Campbell, Andrew Ashworth, Mike Redmayne, 2019 The fifth edition of *The Criminal Process* continues in the tradition of previous editions in providing an insightful and stimulating analysis of the key issues in criminal processes and procedures. The authors draw on arguments from the law, research, policy, and principle, to present an authoritative overview of this area of study. This edition includes a new chapter on the interface between criminal and civil (preventive) justice, and the addition of questions for discussion and suggested readings at the end of each chapter to facilitate debate and further research.

Human Rights in the Investigation and Prosecution of Crime Madeleine Colvin, Jonathan Cooper, 2009-11-12 A practical analysis of the workings of the criminal law in the context of human rights, dealing systematically with the various stages of investigation, arrest and detention in police custody, court procedure, evidence, sentencing, and appeals.

Criminal Litigation and Sentencing The City Law School, 2014-08-28 *Criminal Litigation & Sentencing* gives the reader a detailed understanding of the key laws, rules, and procedures underpinning the criminal justice system from arrest

and charge of a suspect, to trial, sentencing, and appeal. Prosecution cases in the magistrates', Crown, youth, and appellate courts are each fully covered.

Law in Northern Ireland Brice Dickson, 2018-06-28 Law in Northern Ireland is the essential textbook for all students of Northern Ireland's legal system. Changes to this new edition – some of them substantial – have been made to every section, taking full account of five years of developments. The book explores the evolution of law-making in Northern Ireland before going on to explain the relevant constitutional arrangements, how to identify and interpret applicable sources of law, and what are the fundamental rules and principles of public law, criminal law and private law, highlighting where appropriate what may be unusual about them. It contextualises the myriad of legal institutions operating in the jurisdiction, sets out how criminal and civil proceedings work in practice and provides useful information on how people become lawyers, what lawyers actually do once they become qualified and how the legal system is funded. The appendices set out some sample sources of law so that readers can familiarise themselves with what is involved in handling legal documents. The language throughout is accessible and there are Tables of Cases and Legislation, as well as a comprehensive index.
