Our New Human Consciousness Terry Sands, 2011-05 Every few thousand years, our human culture experiences a massive evolutionary transformation. In the next few years, our consciousness will change very rapidly and move us beyond anything we can presently imagine. This change of consciousness is happening naturally to each of us now, and it will affect every aspect of how we think, how we live, and how we love. We are a culture in search of its spirit, and this change of consciousness is evolutionarily next for humankind on this planet. When the awareness opens, one may search many avenues and attractions for truth and enlightenment and find the search lacking in result. The next step may be the path of Self-discovery. But the direction on this path will not be given to us by a great teacher who comes down from the mountaintop with answers cast in stone, but rather by lots of little great teachers who could be called pathfinders. And to move into this

new consciousness, we will transform the mind and the way it works with new mental skills and mental technology. Our success is inevitable. The ease or difficulty with which we achieve this success is still in formation. We will survive the transition physically. The question is whether we will survive psychologically. Psychological survival in this transition depends on only one thing: Developing the ability and inner discipline to completely, instantaneously, unquestioningly and continuously adapt to change.

For many of you, the search for your healing and personal freedom has been long. You have read books, studied theories, attended workshops, sought counsel, and prayed for an answer. Looking for an end to what seems to be a never-ending, unexplainable energy has plagued those searching for their healing, leaving them with a feeling of hopelessness. Stones of the New Consciousness Robert Simmons,2009 Stones of the New Consciousness begins with a new approach to meditation with stones, and to the possibility of conscious relationship with the spiritual beings who express themselves in our world as crystals and minerals. This beautifully designed book examines the most important stones that help accelerate and enhance human evolution. Each entry is illustrated with color photos of exceptional examples. The stones

include Moldavite, the extraterrestrial amorphous crystal; Nuummite, the oldest gemstone on Earth; and Circle Stones, the highly energetic Flint found in crop circle formations. Other featured rarities include Nirvana Quartz from the Himalayas and high-vibrational Natrolite from the emerald mines of Russia. Author Robert Simmons includes historical and mythological references for each stone, positing that the fabled Stone of the Holy Grail and the Philosopher's Stone of the alchemists may have physical counterparts among the materials discussed. Simmons presents practices for deepening one's awareness of the stones' gifts--from expanding one's consciousness, to healing, to fulfilling one's personal and collective destiny. While emphasizing direct contact with stones, the book also explores crystal energy tools, energy environments, and applications such as stone elixirs and essences that can aid anyone on a spiritual path.

Our Inner Ocean LeCain W. Smith, 2014-08-12 Good health is something we all aspire to, but its so much more than just being free of disease. A perfectly functioning body, tranquil mind, and vibrant spirit working together harmoniously create the joy and happiness that put the good in good health and the worth into a life worth living. *Our Inner Ocean* describes ancient and new holistic modalities of practitioner-applied bodywork and revitalizing self-care practices. These illuminate our human potential and awaken our ability to attain and maintain perfect health and well-being. These modalities act as a springboard from which to dive into our inner ocean the realm of wisdom within that is entered by making the body, breath, and energy our allies. This mystical space of awareness, intuition, peace, and love can become the resting place of the spirit, subtly working its magic on ourselves and others. Bodywork has long been recognized as a way to help people feel better physically, but the magic of touch can also help us tap in to the wisdom of the body, discover the power of the energy that permeates it, and evoke its innate healing ability. Self-care practices such as yoga, qi gong, breathwork, and meditation help us become our own healers. When we pass through these portals into the inner ocean, we can reduce stress and pain, release blockages, prevent and resolve dysfunctions, and ignite our spiritual nature. And in doing so, we make the world a better place.
