Making Better Policies for Food Systems OECD, 2021-01-11 Food systems around the world face a triple challenge: providing food security and nutrition for a growing global population; supporting livelihoods for those working along the food supply chain; and contributing to environmental sustainability. Better policies hold tremendous promise for making progress in these domains.

Salt, Sugar, Fat Michael Moss, 2013-02-28 The No.1 New York Times Bestseller In China, for the first time, the people who weigh too much now outnumber those who weigh too little. In Mexico, the obesity rate has tripled in the past three decades. In the UK over 60 per cent of adults and 30 per cent of children are overweight, while the United States remains the most obese country in the world. We are hooked on salt, sugar and fat. These three simple ingredients are used by the major food companies to achieve the greatest allure for the lowest possible cost. Here, Pulitzer Prize-winning investigative reporter Michael Moss exposes the practices of some of the most recognisable (and profitable) companies and brands of the last half century. He takes us inside the labs where food scientists use cutting-edge technology to calculate the 'bliss point' of sugary drinks. He unearths marketing campaigns designed - in a technique adapted from the tobacco industry - to redirect concerns about the health risks of their products, and reveals how the makers of processed foods have chosen, time and again, to increase consumption and profits, while gambling with our health. Are you ready for the truth about what's in your shopping basket?

More Than You Wanted to Know Omri Ben-Shahar, Carl E. Schneider, 2014-04-20 How mandated disclosure took over the regulatory landscape—and why it failed Perhaps no kind of regulation is more common or less useful than mandated disclosure—requiring one party to a transaction to give the other information. It is the iTunes terms you assent to, the doctor's consent form you sign, the pile of papers you get with your mortgage. Reading the terms, the form, and the papers is supposed to equip you to choose your purchase, your treatment, and your loan well. *More Than You Wanted to Know* surveys the evidence and finds that mandated disclosure rarely works. But how could it? Who reads these disclosures? Who understands them? Who uses them to make better choices? Omri Ben-Shahar and Carl Schneider put the regulatory problem in human terms. Most people find disclosures complex, obscure, and dull. Most people make choices by stripping information away, not layering it on. Most people find they can safely ignore most disclosures and that they lack the literacy to analyze

them anyway. And so many disclosures are mandated that nobody could heed them all. Nor can all this be changed by simpler forms in plainer English, since complex things cannot be made simple by better writing. Furthermore, disclosure is a lawmakers' panacea, so they keep issuing new mandates and expanding old ones, often instead of taking on the hard work of writing regulations with bite. Timely and provocative, *More Than You Wanted to Know* takes on the form of regulation we encounter daily and asks why we must encounter it at all.

The Language Instinct Steven Pinker, 2003-02-27 'Dazzling...Pinker's big idea is that language is an instinct...as innate to us as flying is to geese...Words can hardly do justice to the superlative range and liveliness of Pinker's investigations' - Independent 'A marvellously readable book...illuminates every facet of human language: its biological origin, its uniqueness to humanity, its acquisition by children, its grammatical structure, the production and perception of speech, the pathology of language disorders and the unstoppable evolution of languages and dialects' - Nature

Roman London's First Voices Roger Tomlin, 2016 This publication presents research into Britain's largest, earliest and most significant collection of Roman waxed writing tablets. The collection, which boasts the first handwritten document known from Britain, was discovered during archaeological excavations for Bloomberg. The formal, official, legal and business aspects of life in the first decades of Londinium are revealed, with appearances from slaves, freedmen, traders, soldiers and the judiciary. Aspects of the tablets considered include their manufacture, analysis of the wax applied to their surfaces, their epigraphy and the content of over 80 legible texts.

Osteosarcopenia: Bone, Muscle and Fat Interactions Gustavo Duque, 2020-11-15 This edited work presents the most current evidence on osteosarcopenia from bench to bedside, which is expected to facilitate the understanding of this syndrome and to develop preventive and therapeutic strategies. With our aging population, chronic diseases such as osteoporosis and sarcopenia are becoming highly prevalent. Fortunately, our understanding of the bone and muscle interactions has increased in recent years. This has allowed to the coining of the term osteosarcopenia to describe a syndrome in which these two diseases overlap. This overlap between osteoporosis and sarcopenia has major negative effects not only on our older adults but also on health systems worldwide. Readers will find a highly translational approach that starts with a summary of recent discoveries on stem cells biology, muscle and bone interactions - including the role of local bone and muscle fat - followed by comprehensive reviews on myokines (i.e. myostatin), osteokines (i.e. osteocalcin) and adipokines (i.e. interleukins) as major players and determinants of bone and muscle loss with aging. In addition, the role of

sex steroids (i.e. estrogens, androgens), and calciotropic hormones (i.e. parathyroid hormone, vitamin D) in the pathogenesis of this syndrome is also reviewed. Moreover, using practical diagnostic and therapeutic tips, this book summarizes the clinical characteristics of osteosarcopenic patients thus facilitating the diagnosis and treatment of this syndrome in clinical practice. Finally, the book presents the case for the Falls and Fractures Clinic as the optimal model of care for this syndrome, aimed to avoid fragmentation and optimize osteosarcopenia care, and simultaneously prevent falls and fractures in older persons. This book offers relevant information on the mechanisms of osteosarcopenia, and a practical guide on how to identify and treat this geriatric syndrome and its adverse outcomes, which are dramatically affecting our aging population. The work is written by leaders in the field and is especially suited not only to any researcher in the musculoskeletal arena but also to medical specialists and allied health professionals involved in the care of older persons.

Maid Stephanie Land, 2019-01-24 NOW A NETFLIX SERIES STARRING MARGARET QUALLEY & ANDY MACDOWELL. BARACK OBAMA'S SUMMER READING PICK, 2019. BBC RADIO 4 BOOK OF THE WEEK. Educated meets Nickel and Dimed in Stephanie Land's memoir about working as a maid. A beautiful and gritty exploration of poverty in the western world. Includes a foreword by international bestselling author Barbara Ehrenreich. 'My daughter learned to walk in a homeless shelter.' As a struggling single mum, determined to keep a roof over her daughter's head, Stephanie Land worked for years as a maid, working long hours in order to provide for her small family. In *Maid*, she reveals the dark truth of what it takes to survive and thrive in today's inequitable society. As she worked hard to climb her way out of poverty as a single parent, scrubbing the toilets of the wealthy, navigating domestic labour jobs as a cleaner whilst also juggling higher education, assisted housing, and a tangled web of government assistance, Stephanie wrote. She wrote the true stories that weren't being told. The stories of the overworked and underpaid. Written in honest, heart-rending prose and with great insight, *Maid* explores the underbelly of the upper-middle classes and the reality of what it's like to be in service to them. 'I'd become a nameless ghost,' Stephanie writes. With this book, she gives voice to the 'servant' worker, those who fight daily to scramble and scrape by for their own lives and the lives of their children.

Seventy-nine Short Essays on Design Michael Bierut, 2012-03-20 *Seventy-nine Short Essays on Design* brings together the best of designer Michael Bierut's critical writing—serious or humorous, flattering or biting, but always on the mark. Bierut is widely considered the finest observer on design writing today. Covering topics as diverse as Twyla Tharp and ITC Garamond, Bierut's intelligent and accessible texts pull design culture into crisp focus. He touches on classics, like Massimo Vignelli and the cover of *The Catcher in the Rye*, as well as newcomers, like McSweeney's Quarterly Concern and color-coded terrorism alert levels. Along the way Nabakov's *Pale Fire*; Eero Saarinen; the paper clip; Celebration, Florida; the planet Saturn; the ClearRx pill bottle; and paper architecture all fall under his pen. His experience as a design practitioner informs his writing and gives it truth. In *Seventy-nine Short Essays on Design*, designers and nondesigners alike can share and revel

in his insights.

The Lone Wolff Bobby Wolff, 2008-02 This is an author who has been there and seen it all. As a multiple world champion, and former president of the World Bridge Federation, no one is better placed to discuss the big issues that face the game today. He can talk authoritatively about cheating at the top levels of the game, destructive bidding systems, sponsorship, professional players, and the other big issues - and he does. He opens the closets of the bridge world, and shows us the skeletons inside that no one wants to talk about. Wolff names names: as the title implies, he has always been prepared to call a spade and let the chips fall where they may. Wolff describes his own life and career in bridge with a brutally honest and emotional appraisal. This book will receive major review attention, and will be as controversial as one would expect a book from this author to be.

Children's needs - parenting capacity Hedy Cleaver, Ira Unell, Jane Aldgate, Great Britain Department for Education, 2011-10-12 This second edition of *Children's needs - parenting capacity* updates the original exploration of the research literature in the light of legal and policy changes in England and findings from more recent national and international research. The edition has also been expanded to cover parental learning disabilities and how it may impact on parenting and children's health and development. The findings show that these parenting issues affect children differently depending on their age and individual circumstances. While some children grow up apparently unscathed, others exhibit emotional and behavioural disorders. This knowledge can inform practitioners undertaking assessments of the needs of children and their families and effective service responses. This publication is essential reading for practitioners, managers and policy makers concerned with improving the outcomes for children and families who are experiencing such problems.

Putting Children First Keetie Roelen, Richard Morgan, Yisak Tafere, 2019 This edited volume contributes to the policy initiatives aiming to reduce child poverty and academic understanding of child poverty and its solutions. It challenges existing narratives around child poverty, exploring alternative understandings of its complexities and dynamics and examining policy options that work to reduce child poverty.

The Cambridge History of Judaism: Volume 5, Jews in the Medieval Islamic World Phillip I. Lieberman, 2021-09-02 Volume 5 examines the history of Judaism in the Islamic World from the rise of Islam in the early sixth century to the expulsion of Jews from Spain at the end of the fifteenth. This period witnessed radical transformations both within the Jewish community itself and in the broader contexts in which the Jews found themselves. The rise of Islam had a decisive influence on Jews and Judaism as the conditions of daily life and elite culture shifted throughout the Islamicate world. Islamic conquest and expansion affected the shape of the Jewish community as the center of gravity shifted west to the

North African communities, and long-distance trading opportunities led to the establishment of trading diasporas and flourishing communities as far east as India. By the end of our period, many of the communities on the 'other' side of the Mediterranean had come into their own—while many of the Jewish communities in the Islamicate world had retreated from their high-water mark.

Something Borrowed Emily Giffin, 2010-04-01 *Something Borrowed* is the smash-hit debut novel from Emily Giffin for every woman who has ever had a complicated love-hate friendship. The basis for the blockbuster movie starring Kate Hudson, Ginnifer Goodwin, and John Krasinski! Rachel White is the consummate good girl. A hard-working attorney at a large Manhattan law firm and a diligent maid of honor to her charmed best friend Darcy, Rachel has always played by all the rules. Since grade school, she has watched Darcy shine, quietly accepting the sidekick role in their lopsided friendship. But that suddenly changes the night of her thirtieth birthday when Rachel finally confesses her feelings to Darcy's fiancé, and is both horrified and thrilled to discover that he feels the same way. As the wedding date draws near, events spiral out of control, and Rachel knows she must make a choice between her heart and conscience. In so doing, she discovers that the lines between right and wrong can be blurry, endings aren't always neat, and sometimes you have to risk everything to be true to yourself.
